- DSA
- Problem Solving

## WORK EXPERIENCE

Full Stack Internship | Alright Tech Pvt Lmtd

JUNE 2022- SEP 2022

- During my 3-month internship at Alright Tech as a MERN stack intern, I worked on two projects. I developed a responsive web application using React.js and Tailwind CSS and enhanced an e-commerce platform with Redux Toolkit and multilingual support using i18n

MERN Stack Developer | Meds IT Nexus

FEB 2023 - Present

- I have been working at Meds IT Nexus for almost 1.5 years, managing the frontend development for three key projects: Meshsq, Credentialling and the company's main project, Dochyve. In these roles, I am solely responsible for ensuring the functionality, performance, API integration and user experience of the frontend interfaces.

MERN Stack Developer | Freelancing

2022 - Present

- I have over 2 years of experience working on self-driven projects, independently managing web development tasks and delivering high-quality, responsive applications. This has allowed me to refine my skills in the MERN stack across various industries.
